Professional Summary:

Computer Science student at UMKC with a strong project portfolio spanning AI-integrated web applications, algorithms, and full-stack development. Experienced building and deploying production-ready tools using modern frameworks and cloud infrastructure. Consistent Dean's List honoree with demonstrated ability to deliver complex software projects independently.

Education:

Bachelor of Science - Computer Science

University of Missouri-Kansas City

May 2026

Kansas City MO

- Dean's List UMKC – Fall 2024, Spring 2025, Fall 2025

Associate of Arts

Metropolitan Community College

December 2019

Lees Summit, MO

- Dean's List MCCCKC – Fall 2022, Spring 2023
-

Skills:

- **Programming:** GitHub, C++, Python, Java, JavaScript, Typescript, HTML, CSS, React18 + Typescript, Vite, Tailwind CSS, Node.js + Express, MySQL, PostgreSQL, Vitest + Playwright, Claude Code
 - **Other CS:** Google Cloud Console, Anthropic Claude API, Google Calendar API, Vercel, Render, Zustand, OpenVM, Oracle VirtualBox, MongoDB Atlas, JWT + bcryptjs, Resend
 - **Math:** (Calculus, Physics, Linear Algebra, etc.)
 - **LLM/AI:** (Claude, ChatGPT, CoPilot, etc.)
 - **Soft Skills:** Information systems, troubleshoot issues, performance tuning, root cause analysis, modular workflow, intellectual curiosity, problem-solving
-

Projects:

SchedulerAI (React18 + Typescript, Vite, Tailwind CSS, Zustand, Node.js + Express, Anthropic Claude API, MongoDB Atlas, JWT + bcryptjs, Resend, Google Calendar API, Vitest + Playwright, Vercel, Render)

June 2026

- AI calendar app that turns any goal into an adaptive, day-by-day schedule with Claude LLM

Banking Web App (Typescript, Java, JavaScript, Recharts)

May 2026

- BudgetBridge, a personal finance web app for tracking expenses and income with visualizations
- Used Cloud Hosting (Google Cloud backend and MySQL database, GitHub Pages frontend)

Phishender (Python 3.11, HTML, Anthropic Claude API)

May 2026

- LLM phishing detection and explanation tool targeting end users and organizations that need a fast way to evaluate suspicious emails and URLs.

Genetic Algorithms (AI) (Python, pygame)

April 2026

- Created fitness function to rate schedules for classes based on time, instructor, and availability.
- Used genetic algorithm to improve scores by running the program for multiple generations, displaying the improvement during each generation.
- The result is getting a reasonable set of schedules based on parameters and preferences for instructors.

Graph Traversal Algorithms/Visualizations (Python 3.7, matplotlib)

March 2026

- A Python implementation and performance comparison of Depth-First Search (DFS) and Breadth-First Search (BFS) on randomly generated undirected, unweighted connected graphs.

Blockchain Supply Chain (Solidity, HTML, Typescript, JavaScript)

November 2025

- Collect humidity and temperature data, detect breaches, pin data to IPFS, and record transactions on the Blockchain.

Web Development Portfolio Project (HTML, CSS, JavaScript)

December 2025

- A web development portfolio showcasing school achievements and project work.

SOS Game (Java, JavaFX)

December 2025

- Design and code an SOS Game app with features such as CPU opponents and recording game moves.

Automotive Repair Database (pgAdmin4, PostgreSQL)

May 2025

- Develop an automotive repair information system to capture repair orders and print invoices for the repair of vehicles.

Transportation Network Analysis (C++, CLI)

November 2024

- Used a directed, weighted graph to represent a transportation network

Work Experience:

Landscaper/Laborer

October 2020 - May 2024

Williams Landscape & Garden

Kansas City, MO

- Installed flower beds, retaining walls, and edging (natural edge, rock edge, etc.) according to designer's specifications
- General yard maintenance (cleaning, raking, pruning, mulching, etc.)
- Performed other yard work such as laying sod and tree removal

Security Officer

July 2019 - January 2021

Landmark Event Staffing

Kansas City, MO

- Looked out for and reported suspicious activity
- Maintained communication with event organizers, fellow security, and guests during events
- Helped provide security during various events including NFL games
- Obtained security license for work

Warehouse Order Picker

June 2018 - September 2018

Wal-Mart

Harrisonville, MO

- Fulfilled store orders
- Kept warehouse organized
- Used power equipment to move product to trucks
- Properly disposed of defective products

- Completed safety training regularly

Retail Team Member

October 2015 to June 2018

Vintage Stock

Lees Summit, MO

- Provided customer service
- Sent and received phone calls to customers, providing customer service and making sales
- Processed new products and bought used products from customers and put it on display for customers
- Kept the store up to date by putting out new products, promotions, etc.
- Participated in cleaning duties.
- Ordered products from other stores and our vendors for customers.

Retail Team Member

December 2014 to July 2015

Family Video

Lees Summit, MO

- Provided customer service
- Received phone calls from customers
- Performed other activities necessary for keeping the store up to date (i.e., changing signs, movie posters, replacing missing cases, processing new movies, etc.)
- Participated in cleaning duties.

Meat Department Team Member

June 2014 to December 2014

Target

Lees Summit, MO

- Worked to maintain acceptable levels of frozen/refrigerated meat products for customers.
- Provided customer service.
- Participated in cleaning duties.
- Covered breaks at Target Café and Starbucks as needed.
